 Portfolio-RishabhJain

Profile

B.Tech Computer Science graduate(2026) with expertise in HTML, CSS, JavaScript, React.js, Node.js, Express.js and also have a knowledge of Java and C++. Focused on developing scalable and user-friendly web applications.

Education

Graphic Era University

B.Tech in Computer Science; CGPA: 7.95

Dehradun, Uttarakhand

Aug 2022 – June 2026

Technical Skills

- **Languages:** JavaScript, C++, Java, Python
- **Frontend:** React.js, HTML, CSS
- **Backend:** Node.js, Express.js
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, Postman, Visual Studio Code
- **Core Subjects:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Computer Networks, Operating Systems

Experience

Salesforce Developer Virtual Internship

May 2025 – Jul 2025

Salesforce Virtual Internship (Trailhead)

Completed a hands-on Salesforce Developer Virtual Internship, gaining practical experience in Apex, Lightning Web Components (LWC), SOQL, CRM application development, and business process automation. Earned **86+ Trailhead badges**, **108,000+ points**, and achieved the **Agentblazer Champion** rank through project-based learning.

Projects

AI Interview System | Live Demo | React.js, Node.js, Express.js, MongoDB

Nov 2025 – Feb 2026

- Created an AI-powered interview platform using **multiple** HR and technical datasets for role-based mock interview practice, real-time performance evaluation, personalized feedback, and analytics-driven preparation.
- Engineered an NLP evaluation pipeline achieving **87.12%** accuracy, **89.57%** macro precision, and **86.97%** macro F1-score across bundled datasets for automated candidate answer assessment.
- Delivered ATS analysis, personalized interviews, and feedback with **HR/technical** classification, evaluating **7+** resume factors and scoring interviews out of **100** with structured analytics.

YouTube Video Chatbot | React.js, Node.js, Express.js, MongoDB

May 2026 – Jun 2026

- Built a full-stack YouTube AI assistant using React **19**, Vite **8**, Express **5**, MongoDB/Mongoose, and Gemini API across **21** source files, integrating transcript-driven summaries, notes, and contextual chat.
- Implemented **7** routes with **5** POST and **2** GET endpoints for validation, transcripts, summaries, notes, and chat.
- Shipped a **4**-tab workspace with **9** React components, **14** state hooks, Markdown, PDF export, and MongoDB persistence.

Banking Management System | Java, MySQL, JDBC

Aug 2024 – Oct 2024

- Constructed a Java Swing and MySQL banking application across **12** Java files, covering **6** ATM operations: deposit, cash withdrawal, fast cash, mini statement, PIN change, and balance enquiry with transaction recording.
- Designed a structured **3-step** account signup flow to capture personal, additional, and account details, supporting **4** account types and **6** banking service options through modular screens.
- Integrated JDBC connectivity with **5** database tables for login authentication, account registration, transaction history, balance calculation, and PIN updates while enforcing business-rule checks.

Achievements

- Successfully completed **Introduction to Artificial Intelligence (AI)**, **Machine Learning with Python**, and **Programming in Modern C++**, strengthening knowledge in AI, machine learning, and modern C++ concepts.
